ROAD CLOSING – PARSONS STREET, CHAUTAUQUA TO ELM

Beginning Wednesday morning, May 6, 2015, PM Construction, under contract with the Norman Utilities Authority, will be replacing sewers along Parsons Street from Chautauqua Avenue to Elm Avenue. This work will require temporarily closing that portion of Parsons.

Local access will be provided to residents only. Drivers are urged to use alternate routes, as delays can be expected. Alternate routing via Brooks Street or Lindsey Street is strongly recommended. Weather permitting, work should be complete and Pickard re-opened by Saturday, May 9, 2015. Signs will be placed by Action Safety Supply Co. to assist the motoring public.

The Sewer Maintenance Project is an annual \$2.7 million sewer replacement project. It is funded by the \$5/month sewer maintenance fee paid by utility customers, as approved by voters in 2001. The project will replace old damaged sewer lines and manholes in the project area bounded by Boyd Street to the north, Imhoff Creek to the west, Timberdell Road to the south, and Elm Avenue to the east. The total project is scheduled to be complete by September 2015.

Questions or comments may be directed to Charlie Thomas, City of Norman Project Manager, (405)366-5443 or charlie.thomas@normanok.gov.

PLEASE SLOW DOWN AROUND ALL CONSTRUCTION AND WORK ZONES !!
